

Engineers in the Community

Yvette Gerber, Mati Tolera, Mason Ganzhorn, Yahir Dominguez, Qiqi Li

BACKGROUND

- T-REX (Technology Entrepreneurial center at the Railway Exchange)** is a nonprofit innovation and entrepreneurship hub located in downtown St. Louis.
- **T-REX promotes business by offering:**
 - Startup incubation and Acceleration
 - Affordable workplace, mentorship and resources
 - Technology support
 - Community and collaboration
 - Hosts events, workshops, and networking to connect entrepreneurs
 - Research and innovation
 - Support industries like geospatial and fintech

OUR SOLUTION

1. **Interactive online map:** *Allows the user to filter desired criteria like 1) parking type, 2) distance from T-REX, 3) payment type.*
 2. **T-REX Paper Map:** Gives T-REX tenants and visitors the option of a physical map with close parking options outlined
- To reflect accessibility options, we integrated the organization We Hear You, showing locations where their app "Push Door Opener" can be used to aid in opening doors. We aimed to designed a simplified user interface that clarified city parking for T-REX visitors.

IMPACT

Short Term

Help visitors with:

- Quick & easy parking options
- Visible prices before parking
- Visual map for relative location digitally and on paper

Long Term

Helps tenants with:

- Updated prices
- Long term parking options
- Day to day operating times
- Visual map: digital and on paper

PROBLEM

- Visitors lack clear information on available parking options
- No centralized guide for nearby parking choices
- Uncertainty leads to inefficient decision-making
- Some parking areas go unused due to low visibility
- Frustration may discourage repeated visits

THE FUTURE

Our online map was intended to be easily edited for:

- More frequent updates on parking options
- Be an easy and reliable tool for other companies to use
- Help make a pathway for a larger scale map
- Give the residents of STL a reliable map of their own city
